

must ask the offeror to provide its DUNS number by using either the provision prescribed in paragraph (a) of 4.603 or the FAR clause prescribed at 4.1104. If the successful offeror does not provide its number, the contracting officer must contact the offeror and assist them in obtaining the DUNS number.

(e) *Unique Procurement Instrument Identifier (PIID)*. (1) The FPDS requires that each reporting agency assign a unique identifier for every contract, purchase order, BOA, Basic Agreement, and BPA reported to FPDS. Such identifiers shall comply with the contract numbering guidelines established by the Joint Financial Management Improvement Project. The PIID shall consist of alpha characters in the first positions to indicate the agency, followed by alphanumeric characters identifying bureau, offices, or other administrative subdivisions. The last portion of the PIID shall be numbered sequentially. The PIID may include other elements, as appropriate, such as fiscal year. Delivery orders, task orders, and call numbers must be unique in combination with the basic reference contract vehicle identifier. When the basic reference contract is available for multi-agency use (GWAC, Federal Supply Schedule contract, etc.), an ordering agency shall use the same agency identification prefix for its delivery orders, task orders, and call numbers as it uses for its contractual instruments.

(2) Agencies are required to have in place, no later than October 1, 2003, a process that will ensure that each PIID reported to FPDS is unique, Governmentwide, and will remain so for at least 20 years from the date of contract award. To eliminate the possibility of duplication between agencies, agencies must submit their proposed identifier to the Federal Procurement Data Center, which will maintain a registry of the identifiers on the FPDC website

and validate their use in all transactions.
